Michael Brooks
Technical Signatory

BVA 236

Lushintjo BEE Verification has assessed and verified the relevant BEE Elements of the above-mentioned enterprise, to provide an independent and impartial opinion on the BEE status of the enterprise, based on the Amended ICT Sector Codes of Good Practice (40407), the Broad-Based BEE Codes of Good Practice, as well as any relevant gazetted industry charter code.

Dear Customer,

OUR COMMITMENT TO ECONOMIC EMPOWERMENT

Broad Based Black Economic Empowerment forms an important part of the business environment in South Africa and we at MPU Group are committed to the transformation.

The Amended ICT Sector Codes have ushered in a new era of black economic empowerment with increased targets and stringent point allocation. Although MPU Group managed to obtain more points than previously held, the effect of the drastically increased recognition levels is that MPU Group has dropped to a Level 7.

Preferential procurement is a significant part of the Amended Sector Codes and the lowered rating was also largely contributed by the low ratings from suppliers who largely import. After discussions with our largest suppliers we received their commitment to also comply to the Amended Sector Codes. Their commitments will have a significant impact on our future BBEEE rating.

MPU Group is committed to transformation and compliance to the Amended Sector Codes, and we have adopted a long-term strategy to increase our BBEEE level significantly.

Sincerely,

Johan Steyn
Chief Executive Officer
